

NON DIALOGUE
COMIC STRIP

Tyler Spratt

INTRODUCTION

Hello, my name is Tyler Spratt, I am a design student.

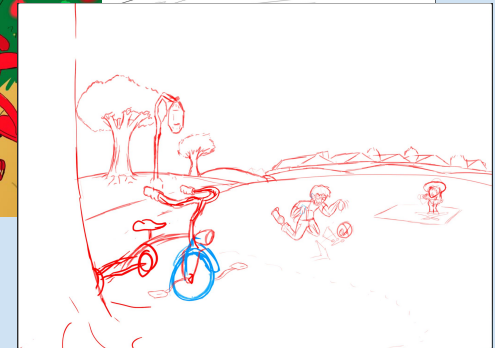

And this is what I did for my Exploration project. First

and foremost I love stories. Novels, films, reality

shows, graphic novels, and even stand up comedy. But

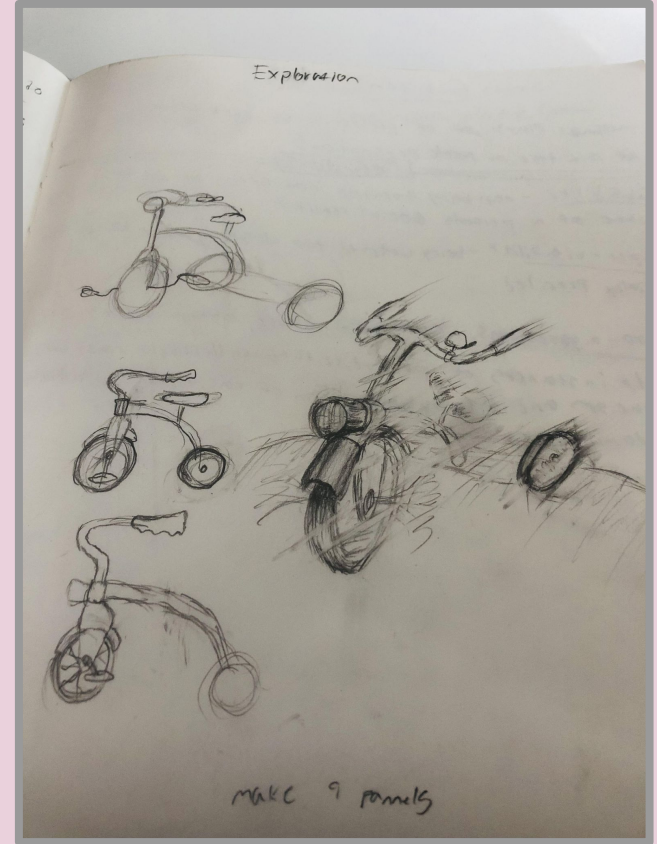

the real reason why I like storytelling as a whole is its

originality.

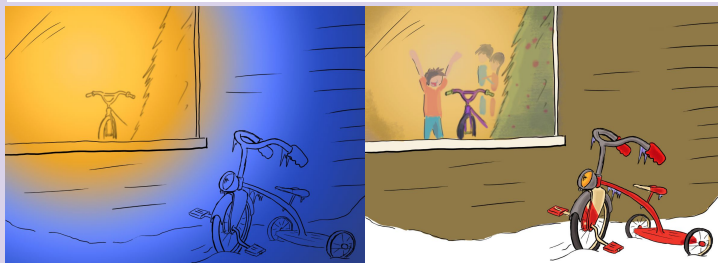

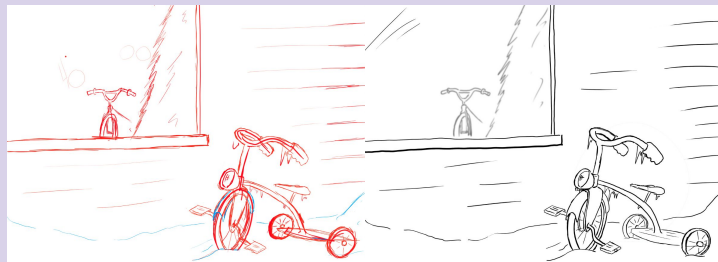

WHY DID I CHOSE THIS

I recently read a quote from Albert Einstein stating "Creativity is seeing what others see and thinking what no one else ever thought." This ties into the 21st Century Skills, Creativity. As this visual story is original and demonstrates personal value to myself and others that relate to the narrative. My goal for this project was to develop the skill of telling a story through visual imagery while the protagonist is an object, and that was not easy given the limited time that I had, which was a span of two weeks. So the process looked something like this.

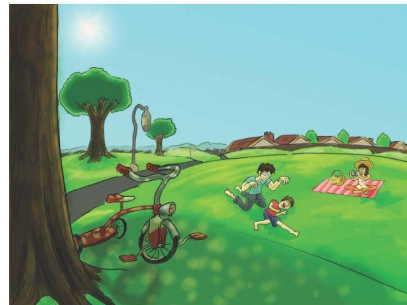

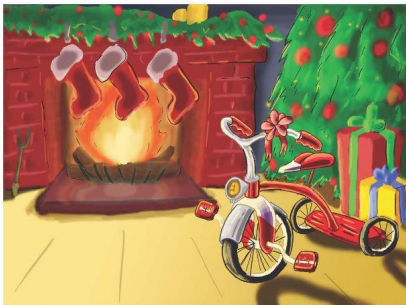

PROCESS

RESOLUTION (WHAT DID I ACCOMPLISHED)

I totally relate to Albert Einstein quotes about Creativity as a vision of seeing what others see and thinking what no one else ever thought." Even if it's just a few short weeks, I learned alot about coloring, highlights, emphasis, and even understanding some of the fundamentals of storytelling. While I know a thing or two about writing stories. Oh boy, I have a lot more to learn. Thank you participating.
