

Gecko House

Sofa Vincent

June 2023

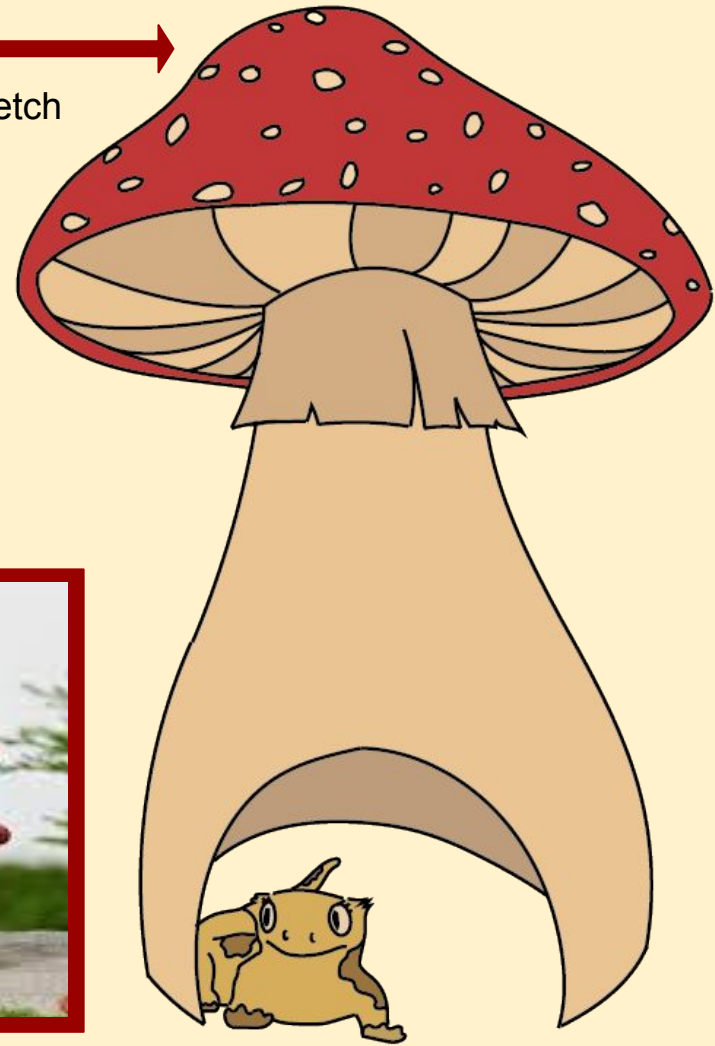

Idea

I have a pet crested gecko and I have been wanting to find creative ways to decorate his tank and give him more things to climb on. This project gave me an opportunity to do this and learn to use clay (another thing I have been curious about learning).

Inspiration:

Original sketch

Process

Materials:

- air dry clay
- acrylic paint

Problems:

- Top caving in
- Stem not supporting cap: short

Finished product

Overall, I think it looks like a mushroom but I think if I were to do this again, I would make the top of the stem smaller and make it flare out at the bottom to make it more like the traditional toadstool mushroom shape.

Thank you!
