

The background of the slide is white with numerous red, hand-drawn scribbles and swirls scattered across it, creating a dynamic and artistic feel.

Character Animation and its Many Quirks

By: Ash Dillon

June 2024

What Does Character Animation Involve?

Skillset:

- color theory/color design
- character design
- understanding movement/dynamics of fluid, explosions, smears, etc.
- understanding human anatomy/proportions
- understanding the 12 principles of animation

Brainstorm

Idea: Animate character introductions to a song

- *Choose a song: Take me Back by More Plastic (on NCS -NoCopyrightSounds)
- *Choose characters to Animate: Original Characters
- *Decide Minimal Plot/Story Idea: Paradox Universe

Minimal Plot Idea

Character and Color Design

Types of Designs:

1. **Headshots**
2. **Chess piece + Name**
3. **Rough clothing/Outfit Designs**

Headshots - helped give me an idea of character's personalities and color palettes

THRUSH

Chess piece + Name
 - Helped me organize
 character information
 like names and role in
 story

Rough Clothing/Outfit Designs - reference for animation concerning stature

Storyboarding/Planning

Planning what goes to what part of the song

Slide Show

Final Submission Need to Knows

Song: Take Me Back by More Plastic (Non-copyrighted!)

1-10 sec - slower/random sounds

10-30 sec - gets faster/builds

30-13 sec - one segment of repeat

13-15 sec - setup for next

1:17 - end of 4 repeated segments

1:17-1:53 - randoms repeated

1:53 - 2:10 - smaller slow build

2:10 - 3:04 - 4 repeat segments again

Edits:

-Will need to duplicate 4 segments twice so that there are 16 in total

-Will need to get rid of randoms in the middle.

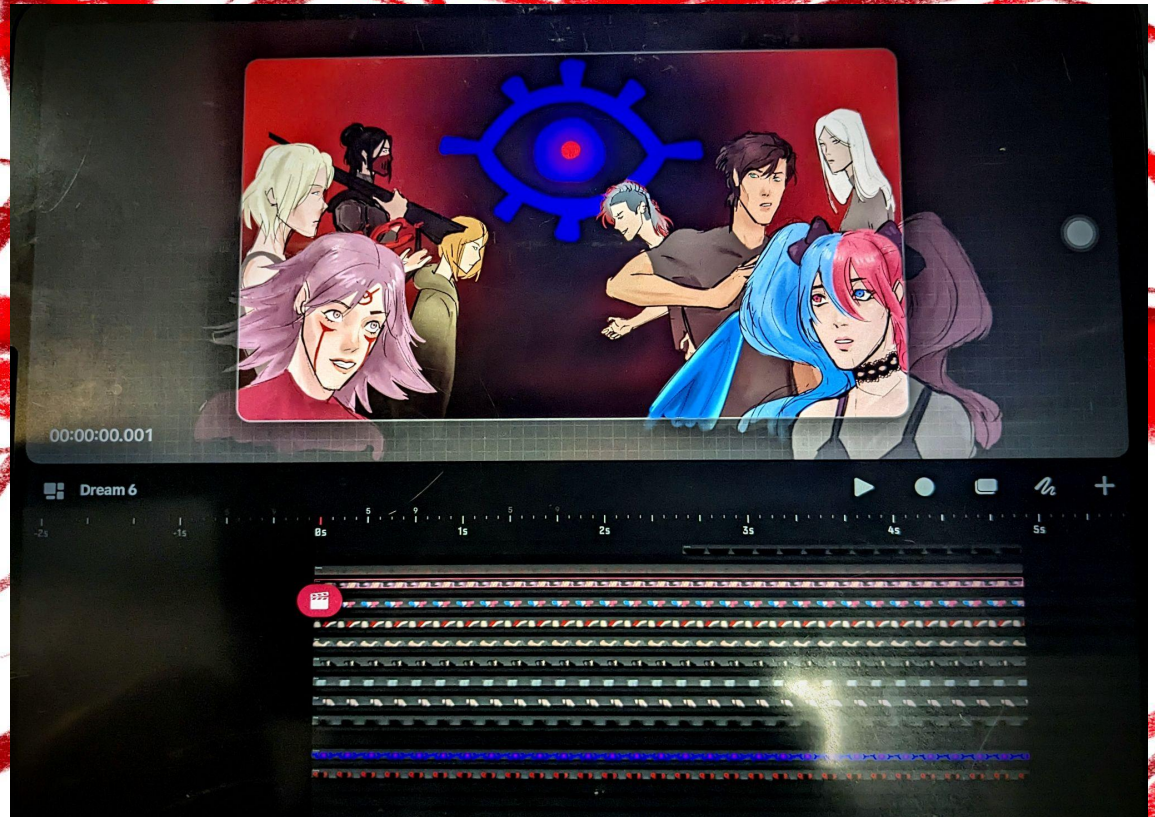

Storyboarding

Production & Post-Production

- SO MUCH animating
- used procreate dreams on apple ipad
- exported from procreate dreams into google drive
- put together with music & edited in premiere pro

Production

(Final
Animation)

Reflections (and Regrets)

MORE TIME would have allowed me to:

- Animate all 16 character intros
- Incorporate more of a story
- Add more information and visual elements for each character

What I learned:

- Don't spend extra time on steps that don't need it
- Look at resources/references while animating if needed
- Research how others have animated specific things like liquid, lighting, etc.

Thank you for
watching!
