

Proposal

Our project will be mostly an audio comedy. We designed a character called the freestyle villain who is a caricature of all of the bad things that we do as freestyle students. We will make a video with b-roll of the freestyle villain doing various evil acts with a voice over of us reading out different bad things that freestyle students do.

Influences:

Rowan Atkinson especially as Mr. Bean. Rowan Atkinson is a British comedic actor. He is an influence for this project because of his physical comedy which we will employ in our B-roll. He also has extremely "out there" characters which we were inspired by in the Freestyle Villain

Mel Blanc is an extremely famous American voice actor. He has done voices for Bugs Bunny, Porky Pig and others. He also was an incredibly famous radio personality. We will be using a voice over for our project and I was inspired by Mel Blancs work.
