### Humor Artist Statement

For the humor unit at Freestyle I decided to make a one panel comic that utilized absurd humor. My humor piece depicts a joker stepping out of his card, as if he is tired of being made fun of. The caption reads "I'm tired of being the Joker around here..." bringing his issue to light.

This piece was created solely in Adobe Illustrator. The techniques I used involved first hand drawing my art on a piece of sketch paper, then from there I scanned the paper onto my computer and placed the sketch onto an Illustrator artboard. After that I simply traced the picture using the pen tool in Illustrator. From there all I had to do was add in some color and the caption.
