

PARODY

Do you ever feel like your gonna die
From the freezing cold
Wanting to go inside?
Do you ever feel, feel like an ice cube
Like you can't move from all the wind and rain?

Do you ever feel kinda nauseous?
100 layers under covers when it's freezing cold?
Do you really need that many tissues
Cuz your room looks like a worm hole

You just gotta get up and wash your face
just take your tissues on the way out

'Cause baby it's just cold
Come on, it's not that bad
Make the shower "run, run,run"
As you sing your favorite song.

'Cause baby it's just cold
Come on, it's not that bad
Make the shower "run, run,run"
As you sing your favorite song.
