

The background of the slide is a soft-focus field of numerous small flowers. The color palette is primarily warm, featuring many bright orange and yellow-orange blossoms, interspersed with several vibrant blue flowers. The overall effect is a gentle, naturalistic pattern.

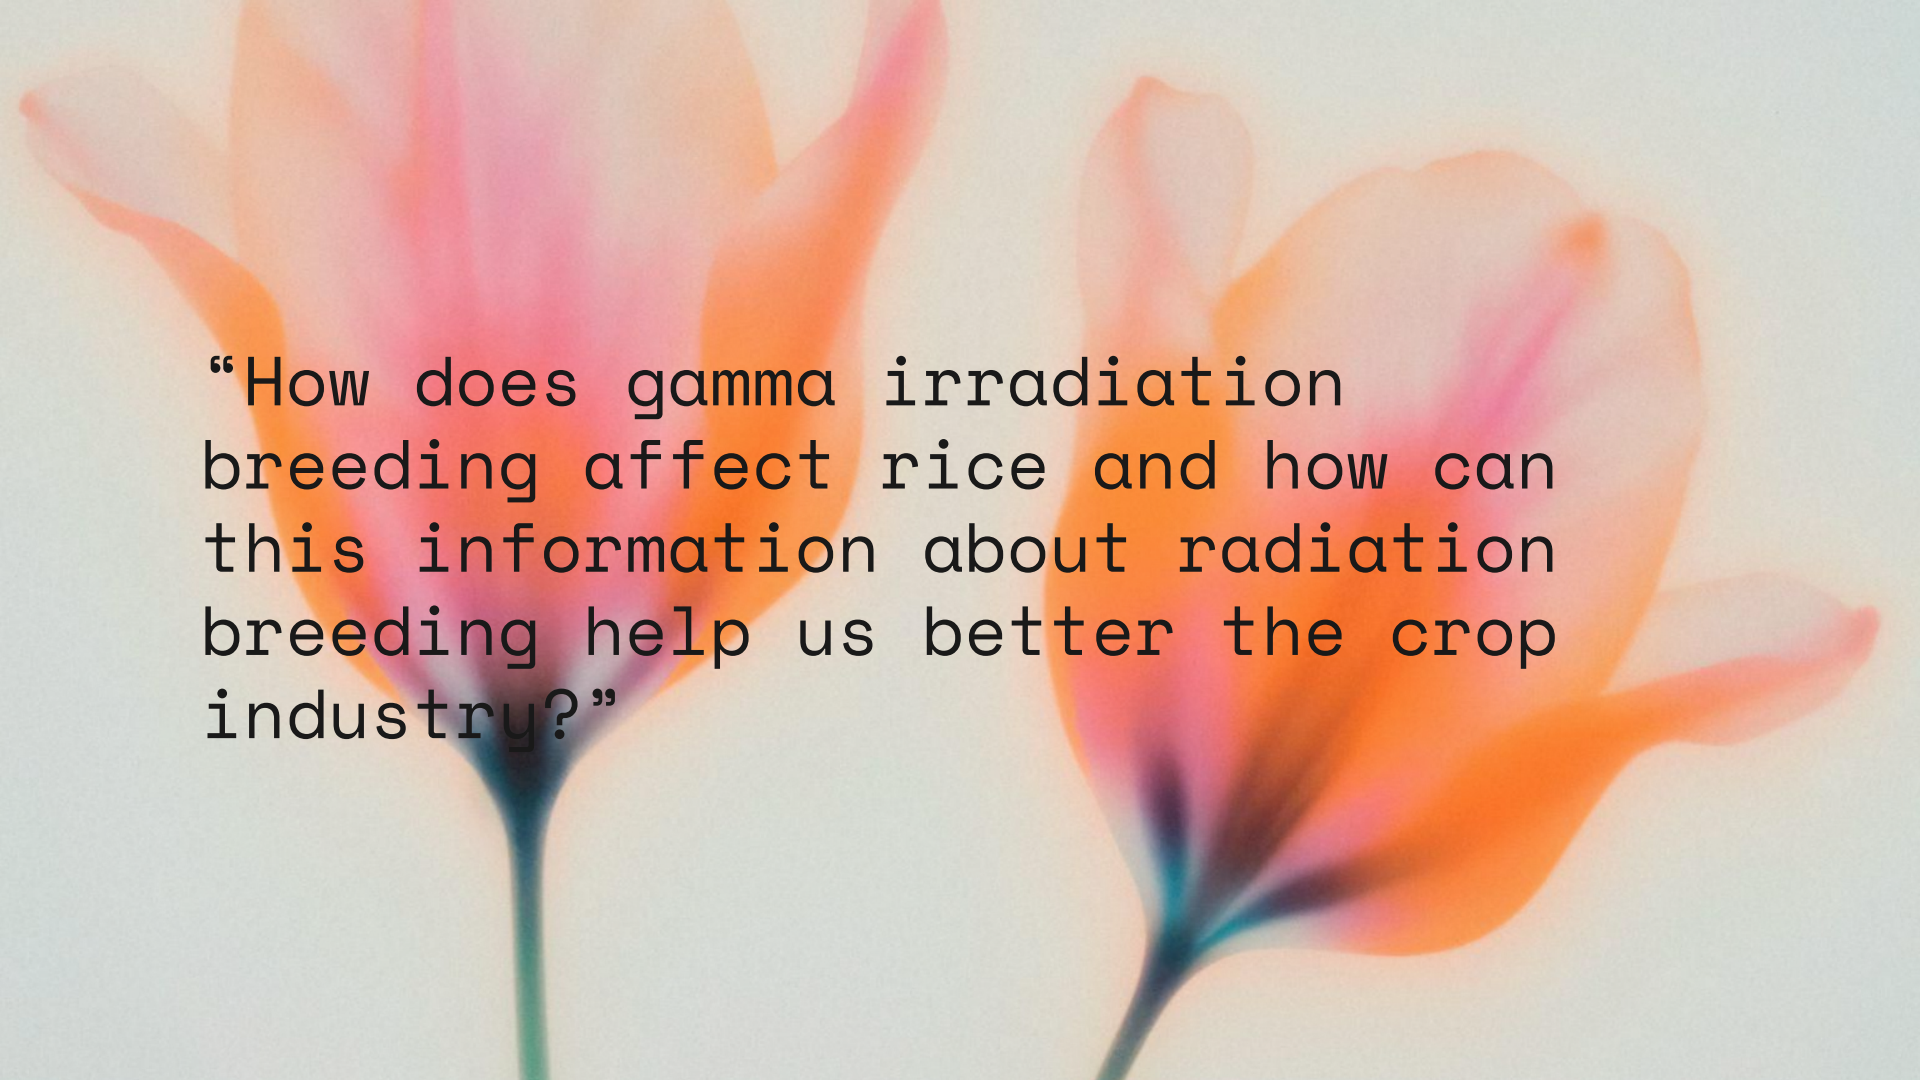

# Radiation: Friend or Foe

By: Maile Jeng

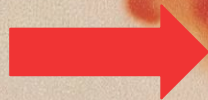

“How does gamma irradiation breeding affect rice and how can this information about radiation breeding help us better the crop industry?”

What is gamma  
irradiation breeding or  
radiation breeding?
