

Kanye West Music Parody Video Script

Pedro: Walks up to an apartment complex

Camera* switches to **Pedro** putting in a code to get into the apartment complex.

Pedro: opens the door to the apartment complex and walks towards a chair in the lobby

Camera* switches to **Pedro** taking a seat on the chair and then pulling his phone out

Pedro: put a pair of headphones on and plays his music from his phone

Camera* switches to **Pedro's** phone close up

Music Starts playing then cuts*

Erik (Kanye West): Starts walking towards Pedro

Camera* Cuts to **pedro** still listening to music "rocking out"

Erik (Kanye West): Approaches **Pedro**

Camera* Switches to a close up shot of **Erik (Kanye West)** face

Erik (Kanye West): "HEY WHAT ARE YOU LISTENING TO? (in an aggressive and loud tone)

Camera* Switches to a close up shot of **pedro** taking his headphones off looking confused

Pedro: Bro who the F*** Are you?

Camera* switches to another close up shot of **Erik (Kanye West)** face

Erik (Kanye West): I'm Kanye West, come follow me!

Camera* Switches to **Erik (Kanye West)** doing a little dance while introducing himself to **Pedro** then begins to walk away towards the stairs

Camera* switches to a shot of **Erik (Kanye West)** walking up some stairs

Camera* switches to a close up shot of **Erik (Kanye West)** from behind him

Kanye west Poopy-di-scoop begins to play as **Erik (Kanye West)** is walking*

Noah: Starts to sing the following lyrics:

Poopy-di scoop

Scoop-diddy-whoop

I'm in love with my ego
I'm the first in my sequel
I don't know who came first
Me or my egoo
Poopity scoop

I got bullied on instagram and i cried about it
Pete Davidson made me cry about it

I say whatever comes to mind yeah
Poopy-di scoop
Scoop-diddy-whoop

I'm a bobble head
I can't fit my big head thru that door
Poopy di scoop
Scoop diddy whoop
I'm a dancer im a father
I scammed my fans \$200 for a stem player

Noah: Stops singing

Song ends*

Camera* stops at an up close shot of **Erik (Kanye West)** face

Music and Video fade out into a black screen*
