Saumeya Suseenthiran - Ring Art - Time Turner

This project and this design has relevance to my own life because it depicts the time turner from the Harry Potter series. It is an homage to my childhood as I turn 18 soon. I recently re-read the books to remember how I felt ~~was~~ when I read them at the age of 7 and regain some of that childhood magic before I close the chapter on it. It^z will serve as a reminder of all the good memories and moments from my youth.
