

Hi, my name is Jack Dees, and I am a recovering Yoo-Hoo addict

Are you or a loved one struggling from a Yoo-Hoo addiction?

It's easy to fall into the Yoo-Hoo market. A tasty, mouth watering, and sweet treat for a hot summer day. Yet incredibly addictive.

Statistically speaking 99.5% of adults that try yahoo become addicted. And don't get me started on kids and teens. It pains my heart to see kids throwing away their lives to chase a sugar rush.

Addiction can get so bad, they'll consume it anyway they can.

Drinking to blackout (drinks full bottle, runs around in circles in fast motion and falls over)

Snorting it

Taking pills

Injecting it

Smoking it

This epidemic has hit communities hard just like the democrats in office. I feel like every turn I take, I see another life ruined by yahoo, and it breaks my heart. Even the teachers of our children are addicted

- Shot of Mr. T in swivel chair passed out with yohoo bottles around him
- Mr Flo after effects tutorial
 - And now if we look at the... Wait, I need to grab my yohoo... put snorting sound effect
- Greco says to class: can you guys give me a minute
 - Walks to back room and starts chugging yohoo and stops and shuts the door when he sees the camera man

IT'S TIME FOR THIS TO END

The sugar rush won't last forever please call 1-800- STOP-YOHOO today to seek help.

Good luck out there

Cut

Ok we're good?

Alright where's my fucking yohoo

We told you we'd have to wait till tomorrow our dealer didn't —

I SAID RUN ME MY YOHOO

- Runs at camera
